

DATA SHEET - CMD.MAIL

Real-time availability of your e-mails, calendars and contacts, wherever you are and from any desktop computer or mobile device.

Powered by Microsoft's Hosted Exchange, your e-mail server is installed and managed in the CMD cloud, as a service, with no upfront fees.

All the functionality of Exchange but no overhead or redundant IT investments. We carry out all the necessary mailbox management,

installation, maintenance, upgrade and support activities on your behalf for a predictable monthly fee.

CMD.mail provides real-time availability of company e-mail, calendars, tasks and contacts, wherever you are and from any device. Our powerful Hosted Exchange integrates seamlessly with a large number of business applications, virtual desktop environments and files sharing solutions.

PACKAGES

BASIC

1 GB mailbox access to send and receive e-mails, schedule meetings or assign tasks from anywhere using the device of your choice.

CUSTOM-FIT

15 GB mailbox access to send and receive e-mails, schedule meetings or assign tasks from anywhere using the device of your choice. Access to add-on features such as mailbox archiving and company disclaimer (signature)

VIP

25 GB mailbox to send and receive e-mails, schedule meetings or assign tasks from anywhere using the device of your choice. Includes add-on features such as mailbox archiving and company disclaimer (signature).

SOLUTION BENEFITS

CMD.mail is ideal for companies that do not want to invest in costly e-mail infrastructure and managing their own IT environments but want to benefit from CMD's latest technologies and years of experience in e-mail hosting.

Increase your employees' productivity by giving them the freedom to work anytime, anywhere, with real-time access to email, calendars, contacts and tasks. Scheduling tasks and meetings becomes a breeze with calendar sharing, while management and workload delegation can be carried out more effectively with shared mailboxes, calendars and tasks.

We will bring your email in line with your business strategy, operational and security needs. Choose from a wide range of professional services such as backup, encryption, two-factor authentication and disaster recovery options.

ENTERPRISE-CLASS

Microsoft Exchange is the industry-leading cloud-based e-mail solution for businesses of any size. Embrace the flexibility to work anytime, anywhere with real-time access to e-mail, calendars, contacts and tasks.

REDUCE OPERATIONAL COSTS

Benefit from professional e-mail hosted on our infrastructure. IT resources can be diverted to other areas of your business and OPEX becomes consistent, based on the number of mailboxes that are in use.

KEEP DATA SAFE AND SECURE

Including premium, malware, virus and antispam protection. Our SSL encryption hides e-mail data during transmission. We protect critical data with professional-grade privacy and security features. All valuable data is secure in our Tier IV data centers.

INCREASE FLEXIBILITY

Our solution provides complete flexibility when it comes to storage capacity, mailbox numbers and individual configurations; adding space or mailboxes, scaling up or down as your business grows.

REDUCE IT-RELATED STRESS

Lighten your IT workload by hosting e-mail in the cloud. We will manage the day-to-day operations of patching, updates, and back-end upgrades so you can focus on growing your own business.

PROFESSIONAL SERVICES

As an extension of your internal IT department our job is to remove any concerns and handle all the complexities regarding your IT issues. Our professional services ensure you benefit from our knowledge and expertise, and experience a safe transition to the cloud.

Our team has many years of experience in managing IT, telecom and cloud services for all types of businesses. We design, build and manage business-critical solutions that contribute to the success of our clients. Whether you are a small or medium enterprise, or a start up, CMD will help bring all IT and telecom services in line with your company's business strategy, operational and security needs.

TECHNICAL SPECIFICATIONS

Our hosted exchange solution comes in various packages with standard features that can be extended and customized as required. You can choose between mailbox size with or without backup and archiving. You can also opt for a customized Service Level Agreement with guaranteed uptime commitments
